

## “PICTOGRAMS APPEARED INSIDE OF A HOUSE”

LOCATION: unknown, POLAND

Date: 2005

Time: various

Aneta and Krzysztof lived normal life. They had their own car and flat. They were happy. Anyway then both of them lost their jobs. Their world suddenly collapsed. Banks want them to pay back their loans. They sold the car and other valuables hoped that they soon would find a work and everything will be all right. But the things were getting worse. A bailiff thrown them out of their house. Fortunately Aneta soon found a job. Krzysztof is still a unemployed person and that fact is making him very angry.

„We found this house thanks to our dog, Saba. It hopped on the gate, as if /she/ wanted to go there”. Soon they moved in their new house. But paranormal events began occurring. They could hear knocking, bustles in the kitchen and strange sounds coming from a garage and the kitchen. This activity was more and more intensive. Mr. Krzysztof couldn't sleep and could hear a “ghosts” bustles in his dreams. He was afraid of being alone didn't want to go to a basement or garage without his wife company.

“Half a year ago we went into this house for the first time – Krzysztof said. I felt somewhat strange. I felt shivers down my spine and pressing on my stomach /as if someone embraced my waist/. After spending two weeks there we want to escape from the house because it seemed to be haunted (...). Once I could feel that something thrown me off. I stumbled and began cursing “the ghost”, cause I simply couldn't stand it. Then I saw a black figure floating in the middle of the room. I have seen it many times. I had a feeling that it is persecuting me, that I'm going mad. I was afraid thinking that it might be a symptom of schizophrenia but my wife and even the dog also noticed the strange activity. My wife decided to summon a ghostbuster. I contacted with many fairies and clairvoyants. They assumed that the house is haunted. Clairvoyants said that I'm connected with the ghost and I need a spiritual progress. But so far they don't allow us to live in this house. There also were so called Ghostbusters here, they were paid a lot of money but didn't succeed. A priest felt that a some kind of alien energy is here and small sparkles came from his palms.”

„After the priest’s visit the occurrences stopped and it seemed that it is the end of that nightmare. But I woke up once in the morning and went down to the kitchen in order to prepare breakfast. Suddenly I noticed that the floor is covered with circles similar to those appearing on grain fields. I called Krzysztof cause I didn’t know how did it appeared. Krzysztof, with fear in his eyes, looked at me and circles. He got angry and began shaking due to fear. He didn’t know what would happen next.”

The circles covered sills and the floor. They were of different dimensions. Some were in shape of ideal circles, the other were a little bit deformed. Some were also unfinished.
